

# I-TORK ITS-300限位开关

产品名称	I-TORK ITS-300限位开关
公司名称	翊亨流体控制（上海）有限公司
价格	.00/件
规格参数	品牌:I-TORK 型号:ITS-300 产地:韩国
公司地址	上海市奉贤区四团镇四平公路1889号2幢236室（注册地址）
联系电话	021-31263237 13331847886

## 产品详情

I-TORK ITS-300限位开关用于危险工况的阀门和执行器设计，结构牢固紧凑，符合EN50014与50018标准，也适用于1区和2区的场合，防护等级IP67。限位开关行程开关回讯器阀位显示是传送执行器和阀门的位置讯号到现场和遥控操作站。它能直接安装在执行器的上部，符合标准VDI/VDE3845，特点有现场可视位置指示器，快速调整位置凸轮：可调式凸轮通过花键和弹簧安装，只要开关凸轮脱离花键便可旋转调整所需的位置，防掉外壳螺钉和两个电缆进口G1/2"接管口，内部行程开关预先连接接线终端，8个接线端子，并可用于电磁阀的连接。The I-TORK ITS-300 limit switch is designed for valves and actuators in hazardous conditions. The structure is firm and compact. It meets the EN50014 and 50018 standards. It is also suitable for areas 1 and 2. The protection level is IP67. Limit switch, travel switch, feedback device The valve position display is to transmit the position signal of the actuator and valve to the field and remote control station. It can be mounted directly on the upper part of the actuator, in accordance with the standard VDI/VDE3845, features a field visual position indicator, quick adjustment of the position Cam: the adjustable cam is mounted by splines and springs, as long as the switch cam is disengaged from the splines, it can be rotated and adjusted Desired position, drop-proof housing screws and two cable entries G1/2" port, internal travel switch pre-connected with wiring terminals, 8 wiring terminals and can be used for the connection of solenoid valves.I-TORK ITS-300限位开关作为工业自动化控制系统中的重要执行机构，可远距离集中控制能满足计算机程控的需要；如今在石油化工、燃气设备、核工业、电力装备、环保水处理、暖通空调、钢铁冶金、工业窑炉、罐装设备、酿酒设备、干燥设备、真空设备、表面处理、生物制药、食品机械、纺织印染、造纸等行业中得到广泛的使用。
