thedie-2500sgtseries of 2-electrode spark gas tubes are gas discharge tubes, hermetically sealed in a glass-metal envelope. tubes with a dc breakdown voltage in the range $2000v \pm 5\%$, $2500v \pm 5\%$ are available.

the spark gas tubes, matched with contacting cable and semiconductor spark plug can be widely used in high power igniters which are fueled by natural gas, liquefied petroleum gas, diesel oil smog and heavy oil smog. after being cooperated with many companies, the products are proved to be of the characteristic of high spark power, compact, safe and reliable.
