实物拍摄，盗图可耻。

剪刀收到后，请勿擅自调动，有疑问的请第一时间联系掌柜，掌柜定会认真解答。

本厂生产的理发剪刀属手工制品，由于钢材的属性不同，请尽量避免同酸碱高腐蚀制品放一起，用后请及时擦拭，防止手心汗液的过长停留。

精密制品请勿摔。

every pair of our fenglee-hair-cutting scissors is the result of a 151-stage manufacturing processes, combining traditional craftsmanship with the most modern high-tech procedures, to turn the stainless steel into a highly developed hair-styling tool.1. materialmaterial for blade is one of the most important elements in the quality of scissors.to achieve a better edge and durability,we uses material#440c for most of our high quality shears.2. edgeall of our high class and middle class shears are made with convex edge,the convex edge enables you to use it freely,slide cutting,fly cutting,straight cutting or any other cutting styles.the beveled edge is also available,this can be used for even longer time than the convex edge.3. screwfor our high class shears,we also can supply with japanese screw,the japanese screw guarantees maximum flexibility, ensures excellent operation,it won ' t loose off easily during the usage.4.we can make curve-blade shears also,you can make a choice to curve the blade up or curve the blade down just as the

picture6.testwe test all of our high class and middle class scissors with tissue test to ensure the sharpness and smoothness.7.logowe have 3 methods to put the logo on the scissors,the normal one is laser marking
