

有售 美国奥升德 PA66 Vydyne 21SPF 耐汽油性/耐油性能/抗溶剂性

产品名称	有售 美国奥升德 PA66 Vydyne 21SPF 耐汽油性/耐油性能/抗溶剂性
公司名称	深圳市嘉誉鑫科技有限公司
价格	1.00/千克
规格参数	美国奥升德:PA66 21SPF:/耐油性能/抗溶剂性 美国:奥升德
公司地址	深圳市龙华区大浪街道高峰社区长燊大厦3层
联系电话	1326-5555881 13265555881

产品详情

产品说明：

Vydyne 21SPF is a general-purpose PA66 resin. Available in natural, it is designed principally for injection-molding fabrication. This grades offer a well-balanced combination of engineering properties characterized by high strength; rigidity; good toughness; high melt point; good surface lubricity; abrasion resistance and resistance to many chemicals, machine and motor oils, solvents and gasoline. Vydyne 21SPF resin permits production of molded parts with good initial color plus good property and color retention when using regrind. This resin is recognized by Underwriters Laboratories and conforms to the requirements of many industrial, federal and military specifications for premium-quality, general-purpose PA66 resins. Vydyne 21SPF resin is internally and externally lubricated for improved machine feed and exceptional mold release. It is intended for use in high-productivity applications. In many applications, the molding cycle can be reduced because parts may be removed from the cavity at higher temperatures. In difficult molds where parts have a tendency to stick in the cavity, Vydyne 21SPF can reduce or eliminate the need for mold release sprays. Critical molded part dimensions should be checked against specifications before implementing shorter molding cycles on a routine production basis. Typical Applications/End Uses: To come
