

氢燃料电池堆生产周转小车 电堆转运小车 电堆发动机组装小车

产品名称	氢燃料电池堆生产周转小车 电堆转运小车 电堆发动机组装小车
公司名称	杭州欧森科技有限公司
价格	.00/件
规格参数	品牌:欧森 型号:HZOS-FC-2101 产地:浙江
公司地址	杭州市余杭区余杭街道文一西路1818-1号1幢中 国杭州5G创新园4楼435室
联系电话	0571-87208795 13515812301

产品详情

氢燃料电池堆生产周转小车

【Hydrogen fuel stack production turnover trolley】应用描述：

本小车适用于氢燃料电池堆发动机系统组装周转

功能特点：

整车布局合理紧凑、美观

基于AGV二次开发，小车预留接口，可根据生产需求合理调整装配工序。使用本小车有助于电堆多角度安装、方便、省时、省力

小车描述：

本小车具有水平旋转、上下升降、可根据客户需求兼具调度系统，可携带E-SOP看板，方便生产管理。

Application Description:

This trolley is applicable to assembly and turnover of Hydrogen fuel stack engine system

Functional features:

The overall layout of the vehicle is reasonable, compact, and aesthetically pleasing

Based on AGV secondary development, the car has reserved interfaces, and the assembly process can be adjusted reasonably according to production needs. The use of this small car facilitates the installation of the stack from multiple angles, making it convenient, time-saving, and labor-saving

Car description:

This car has horizontal rotation, up and down lifting, and can also have a scheduling system according to customer needs. It can carry an E-SOP dashboard for easy production management.
