

# 胶原蛋白

产品名称	胶原蛋白
公司名称	湖州瑞达生物制品有限公司
价格	面议
规格参数	
公司地址	湖州市毗山西路158号福鹏工业园区
联系电话	0572-2385678 18357259949

## 产品详情

胶原蛋白粉（又称：水解胶原蛋白）含有十八种氨基酸，其中维持人体生长所需的氨基酸有七种。现代医学证明：如人体胶原蛋白的生物合成发生异常时会导致病变。胶原蛋白粉因其易溶、易消化吸收，又能与其他食物产生互补效果，所以在人体的新陈代谢过程中可补充胶原蛋白，增强体质。本公司生产的胶原蛋白粉，采用一级新鲜猪皮作原料，经现代先进的科学方法精制、喷雾干燥而成，该产品已经杀菌，可一年贮藏不变质。其分子量为1500-3000，与水相溶热稳定性好，内含各种氨基酸易被人体吸收。因此，本产品最适应作营养、滋补保健品的最佳原料，能促进人体新陈代谢，增强体质，调节内分泌，抑制人体有害物质脂褐素的生长，对胎儿、婴儿有加速骨骼发育，增强智力的优良效果。

Collagen powder (alternate name: hydrolyzed collagen) containing 18 amino acids, which maintain the required amino acids of human growth and there are seven. Modern medicine has proved: if it makes some mistake on human collagen biosynthesis, it will cause disease. Because of collagen powder soluble, digestible and absorbed, and produce complementary effect with other foods, so it can add to the collagen in the body's metabolic processes, enhance physical fitness. Our company's production of collagen protein powder, a fresh pig skin as raw material, refined modern state-of-the-art scientific methods, spray drying, the product sterilization, storage can be a year not degenerate. The molecular weight is 1500-3000, and water miscibility thermal stability, containing various amino acid scan be absorbed easily. Therefore, the best adapted for nutrition, nutritious health products the best raw materials, can promote the body metabolism, enhance the physical, endocrine regulation, inhibiting the growth of harmful substances lipofuscin, accelerated bone development in fetuses, infants, and enhance intelligence excellent effect.
