

# 注塑机专用机械手|自动上下料机械手|浙江注塑机机械手

产品名称	注塑机专用机械手 自动上下料机械手 浙江注塑机机械手
公司名称	台州翔伟机械有限公司
价格	10000.00/台
规格参数	
公司地址	中国浙江台州台州市浙江省台州市黄岩区印山路275号
联系电话	0576-13957617109 13957617109

## 产品详情

XW斜臂式机械手 产品特点：

手臂结构：采用进口的高刚性缝形滑轨和质量轻、高刚性的铝合金结构梁，

左右旋转机构：更换置物方向时方便调整,仅调整螺丝即可,不需要换气管及磁簧开关。

爪旋机构：具有爪旋机构。夹具可以旋转90。放置成品，

换模调整机构：换模时仅需将固定把手松开。全机可旋转90。提升换模效率。

治具回路：可以同时吸成品和夹水口。可用于一模多腔成品的吸取，机体结构：全机采用铝合金精密铸造。

搭配cNc精密加工。整机稳固。可以承受高速运动。耐久使用寿命长。上下手臂使用进口的高刚性

线形滑轨，引拔使用质量轻高刚性的铝合金挤型梁配合线形轴承及高刚性的轴承，能达到取出速度快、

高效能、震动小、使用寿命畏的要求。 Inclined arm type manipulator Product features: Structure: ado

pting imported arms high rigidity seam shape slippery course and light quality. High rigid

alloy structural beams, The left-right rotating institutions: replacement stowage direction conveni

ent adjustment, only adjustment screws can, do not need to change the trachea and magn

etic reed switch. Claw spin institutions: has the claw spin institutions can rotate 90. Fixture.

Placed finished product, Changing mould adjusting mechanism: changing mould only will rele

ase your hand when fixed. The whole machine can rotate it 90. J ascension changing m

ould efficiency. Fixture loop: can while sucking finished and clip runner. Can be used for

a mold cavity fg drain, The structure: the machine is adopted aluminum alloy precision cast

ing. Collocation cNc precision machined. The machine spike solid. Can withstand high spee

d movement. Durable service life is long. Upper arm Use of imported high rigidity linear

slide is pulled, led light quality high rigid using aluminium extruded beam, along with line

ar bearings and high rigid bearings, can achieve remove speed,

High efficiency, small vibration, service life feared requirements.

主营：[注塑机机械手](#)

，浙江机械手，输送带，模温机，除湿干燥机，中央供料，粉碎机，冰水机，计量机，搅拌机，吸料机

, 筛选机。
