

输送带|冰水机|除湿干燥机|注塑专用机械手|机械手_注塑机械手_机械手品牌-注塑机械手厂家

产品名称	输送带 冰水机 除湿干燥机 注塑专用机械手 机械手_注塑机械手_机械手品牌-注塑机械手厂家
公司名称	台州翔伟机械有限公司
价格	40000.00/台
规格参数	
公司地址	中国浙江台州台州市浙江省台州市黄岩区印山路275号
联系电话	0576-13957617109 13957617109

产品详情

输送带|冰水机|除湿干燥机|注塑专用机械手|机械手_注塑机械手_机械手品牌-注塑机械手厂家

主营：[注塑机机械手](#)

，浙江机械手，输送带，模温机，除湿干燥机，中央供料，粉碎机，冰水机，计量机，搅拌机，吸料机，筛选机。

联系人：张小姐

XW-S单轴伺服机械手产品特点：横行、上下手臂、引拔均使用进口高刚性精密线形滑轨设计，引拔上下均使用质量轻，高刚性的铝合金挤型结构梁，能达到取出速度快、高效、平稳顺畅和使用寿命长的要求。采用特殊的皮带倍速机棒，大大缩短了上下手臂的结棒高度。除了能增加上下行程的速度和稳定性外，还可配合厂房高度低的场所。标准横行为Ac伺服马达驱动，速度快而稳、耐磨耗，寿命长。定位精度高建±0.1mm，模外可实现多点停放功能。可用于定位精度高的产品取放。自勤检测氮源压力是否足够。如果压力不足会自动警报显示压力不足。并自勤弹出放落汽缸防止手臂下滑。特殊的电路设计即使出现系统故障、断氮源等，也可保护机械手臂和模具的安全。引拔位置、手臂上下位置电动遥控调整。节省调整时间和增加操作的安全性。

Horizontal walk type - servo manipulator Product features: Hooliganism, fluctuation of arm, lead pull all USES imported high rigid precision linear slide revolving design, led Ji pull up and down all USES light quality, high rigid extruded aluminum alloy structural beams, can To remove speed. Efficient. Chou smooth shun and longevity feared requirements. Adopt sp

pecial belt 2x machine stick, greatly shortened upper arm "great heights. Besides can increase speed and stability of the upper and lower travel outside, still can cooperate to plant height Low place. Standard auricle for Ac servo motor drive, faster and abrasion resistance, life community. Fear. Positioning accuracy $\pm 0.1\text{mm}$ gao jian, Mould outside can realize more parking function. Can be used for higher precision products take put. Since frequently detection chlorine source pressure is enough. If insufficient pressure will automatically alarm shows insufficient pressure. And since frequently popup down cylinder prevent arms to slide. Special circuit design even out of HSCG system failure. Broken chlorine source, etc. Also can protect the mechanical arm and mould safety. Lead position, arm pull fluctuation position electrical control adjustment. Save adjusting time and increase the safety in operation.
