

# 苏威 Solvay PFA MFA 1041 防火 阻燃性

产品名称	苏威 Solvay PFA MFA 1041 防火 阻燃性
公司名称	东莞市越泰新材料有限公司
价格	180.00/件
规格参数	苏威:15 g/10 min MFA 1041:熔指10 美国:9.0 kJ/m
公司地址	东莞市樟木头莞樟路23号五号
联系电话	180-98275951 13450060513

## 产品详情

# Hyflon MFA 1041

Perfluoropolymer

Solvay Specialty Polymers

产品说明：

Hyflon MFA 1041 is a high extrusion speed resin specifically designed for insulation for plenum-rated LAN cables. MFA 1041 delivers superior electrical performance in addition to its excellent fire characteristics, physical properties, and processing. The unique chemical structure of MFA provides the superior properties necessary for the increasingly demanding telecommunications industry. Cables manufactured with MFA 1041 have met the Telecommunications Industry Association (TIA) Category 6 standard. The extremely low attenuation of MFA 1041 makes it a logical choice for the developing Augmented Category 6 standard. Cables made from MFA 1041 have met the fire performance requirements called out in NFPA 90a ("Standard for Air- Conditioning and Ventilating Systems"). Hyflon MFA 1041 is not recommended for heavy wall applications where significant thermal stress crack resistance is required.
