

注塑级 光学级PC高聚塑胶原料

产品名称	注塑级 光学级PC高聚塑胶原料
公司名称	京冀（广州）新材料有限公司
价格	18.00/件
规格参数	本色:光学应用 注塑级:电子电器产品 颗粒:高刚性
公司地址	广州市南沙区丰泽东路106号（自编1号楼）X130 1-E014087（注册地址）
联系电话	18938547875 18938547875

产品详情

聚碳酸酯(PC)是碳酸的聚酯类，碳酸本身并不稳定，但其衍生物(如光气，尿素，碳酸盐，碳酸酯)都有一定稳定性。

????????????????????????????????

??

??

????????????????????????????

????????????????????Aliphatic polycarbonate. For example, poly (ethylene carbonate) , poly (trimethylene carbonate) and their copolymers, which have low melting point and glass transition temperature and poor strength, can not be used as structural materials, but their Biocompatibility and biodegradable properties, it can be used as release carrier, Surgical suture, bone support material and so on.

Polycarbonate is resistant to weak acid, weak alkali and neutral oil. Polycarbonate is not resistant to ultraviolet light, strong alkali. PC is a linear carbonated polyester, the molecular carbonates and other groups alternately arranged, these groups can be aromatic, can be aliphatic, or both.

Bisphenol A Type PC is an important industrial product. PC is a nearly colorless amorphous glassy
