

EVA 美国杜邦 360 汽车部件，电子电器部件，家电部件，电线电缆

产品名称	EVA 美国杜邦 360 汽车部件，电子电器部件，家电部件，电线电缆
公司名称	京冀（广州）新材料有限公司
价格	11.00/千克
规格参数	EVA:汽车部件 360:电线电缆 美国杜邦:电子电器部件
公司地址	广州市南沙区丰泽东路106号（自编1号楼）X130 1-E014087（注册地址）
联系电话	18938547875 18938547875

产品详情

Dupont Eva 40W VAC content of 40% , MI: 65 for blending resin, adhesive raw materials, such as products, such as laminates, inks, dupont Eva 150VAC content of 30% , ml: 33 suitable for adhesives and mixed products dupont EVA 200W VAC content 28% , MI: 2500 for processability and strength, suitable for hot melt adhesives and coatings dupont Eva 205W VAC content 28% , MI: 800 for processability and strength, suitable for hot melt adhesives and coatings dupont Eva 210VAC content 28% , MI: 400 for low molecular weight, high gloss. Dupont Eva 220VAC content for hot melt adhesives 28% , MI: 150 for adhesives and mixed products dupont Eva 230VAC content 28% , MI: 110 for adhesives and mixed products dupont Eva 240VAC content 28% , ml: 43 for adhesives and mixed products dupont Eva 250VAC content 28% , MI: 25 for adhesives and mixed products dupont Eva 260VAC content 28% , MI: 6 for special needs products dupont Eva 265VAC content 28% , ml: 3 for special needs products dupont Eva 310 VAC content of 25% , MI: 400 for medium molecular weight, viscosity * dupont Eva 350 VAC content of 25% , MI: 19 for suitable and 460 brand mix, the content of dupont Eva 360vac is 25% , MI: 2 is suitable for mixing with 460 brand, the content of dupont Eva 410VAC is 18% , MI: 500 is suitable for low melt viscosity, high thermal bonding strength dupont Eva 420 VAC content 18% , MI: 150 for suitable adhesives and mixing products dupont Eva 450 VAC content 18% , MI: 8 for suitable for injection molding and other products dupont EVA 460 VAC content 18% , ml: 2.5 for soft, suitable for shoes and soles and other products dupont Eva 470VAC content 18% , MI: 0.7 for blow molding products dupont Eva 500W VAC content 14% , MI: 2500 for processing and strength good. Suitable for hot melt adhesives and coatings
