包河UPS快递 合肥包河区UPS寄件电话 合肥本地国际快递网点 合肥全境免费取件
免费打包加固，美国重货特价收货

去年，UPS 会应对了 28 场世界重大灾害，并投资了超过 2000 万美元的资金、实物和技术支持，用于社区安全举措，包括加强备灾、紧急灾害响应、恢复和加强公共卫生。建立社区需要更好地抵御未来灾害并从中恢复的弹性是 UPS 人道主义救济和复原计划的一个持续且具有战略意义的方面。同样在去年，UPS 会为 74 个国家的人道主义援助和救济提供了实物支持——价值近 650 万美元的实物服务——包括借用专家和利用 UPS 拥有和签约的全球空中网络运送救援物资。地面、铁路和海洋。

“Logistics is one of the most important economic sectors and largest employers in Lower Saxony,” said Dr. Bernd Althusmann, Lower Saxony’s minister for Economic Affairs, Labour, Transport and Digitalization. “Langenhagen and Hannover are located in the middle of Germany and in the heart of Europe – a potential from which the logistics sector can profit like hardly any other location. The expansion of this UPS branch is thus a commitment to the business location of the Hannover region and at the same time a door opener for the export activities of local companies.”

The new hub will cover an area of 24,000 square meters – equivalent to three soccer fields – once the second phase of construction is completed in 2023. Phase one of construction will involve a new building being erected alongside the existing facility, to be completed by the summer of 2021. Phase two will involve demolition of the existing sorting and distribution centre and the construction of a second building.

Supporting UPS to meet its global sustainability goals, the hub will be built to the German Sustainable Building Council's (DGNB) Gold standard and will include the provisions to support future delivery fleet electrification. And to ensure that sustainability does not stop at the power socket, UPS in Germany is sourcing its electricity – for its facilities and electric delivery vehicles – exclusively from renewable sources.

The new facility is part of the company's multi-year European investment plan, aimed at modernizing and expanding the UPS network across the continent. Investments in Germany as part of this program include new and upgraded hubs in Bielefeld, Herne and Nuremburg, complementing recent European super hubs in London, Paris and Eindhoven.
