

TN2001Film Processor

产品名称	TN2001Film Processor
公司名称	济宁市通联电器厂
价格	.00/个
规格参数	
公司地址	中国 山东 济宁市 吴泰闸路107号
联系电话	86-05372332869 18953760577

产品详情

tn2001film processor

product feature

- clever auto-deviate box , it is practicality and convenience .
- big screen, chinese windows and operate hint, the running state is very clear at a glance.
- silica gel press water equips in order to reduce the chemical pollute, improve the printing quality and save the chemical.
- power saving hot wind cycling warm up the film regularly to make the film dry and smooth.
- the main parts adopt the titanium mixmetal, it is anti-corrupt strongly.
- the whole control section of output circuit adopt the solid relay and the circuit hasn't the spark to disturb.
- chemical cycling perfectly and pouring setup, so the negative is very colorful.

main funtion • the style: all open operation

- technique: c41,c41-ra or similar technique

- negative model: 135,120,110,126
- transmission system: the center chain press each time feed two rolls same model or different model.
- capacity:35model 22rolls/hour(36prints/roll,c41 technique);135model 30rolls(36prints/roll,c41-ra technique)
- tank volume: cd 19 l ; bl 18l ; fx 18l ; stb 20l
- the emergency unit: when the power shut off, the negative can be continually processed manually.
- replenishment tank volum:10lx4
- dimesion: 1210mm (l)x 570mm (w)x 1400mm (h)
- power supply: ac220v, power: 2.3kva, then less than 0.9kva after the normal temp.
- weight: 220kg .
