## 产品详情

Linear type Liquid filling machine Filling Machine Product Description; xjx11wm

Our company products include;[Oil filling machine](#),[Liquid filling machine](#),[Paste filling machine](#),ect.

Do you know which packaging machine is the best in China? Dongtai machinery is a professional packaging machinery manufacturer. Provide the user the best solution, through long-term customer service has set up a perfect sales service system.

Machine type; RGY2T-1G

Optional Model;RGY2T-1G60ml,125ml,250ml,500ml,1000ml,2500ml,5000ml

Main use

The filling machine widely used in food, daily chemical, pharmaceutical, oil and other industries, may be filling different liquid products.

Specifications

Filling speed ;10-30 bottles / min

Filling precision;     ± 1%

Power; 220/110V 50/60Hz

Pressure ;0.5-0 .7 MPa

Current; 3A

Power; 300W

## Principle and Features

A RGG2T-1G is our company filling machine series of products based on the improved design, and adds some additional functionality. Operation of the product in use, precision error, installed machine and capacity adjustment, equipment cleaning, maintenance, etc. is more easy and convenient.

B widely used in food, daily chemical, pharmaceutical, oil and other industries, high-viscosity fluids can be carried out for different filling.

C. the compact machine design is reasonable, simple and have beautiful appearance, filling volume adjustment easily.

D. the machine with two synchronous filling heads, filling materials quickly and accurately.

E. using German FESTO, Taiwan AirTac pneumatic components and Taiwan's electrical control parts, and stable performance.

F Material contact parts made of 304L stainless steel materials .

G .use -ray eye device with South Korea, Taiwan's PLC and the French electrical components.

H.-conditioning facilities, no bottle no filling, filling the amount of accurate and has a count function.

I. used anti-drip and drawing, focusing instead on the filling, anti-foam products, filling high-lift system to ensure that bottle positioning system positioning system and liquid level control
