

耐低温 抗冲击ABS(台湾奇美PA-709)

产品名称	耐低温 抗冲击ABS(台湾奇美PA-709)
公司名称	京冀(广州)新材料有限公司
价格	18.00/千克
规格参数	ABS:挤出级 PA-709:电子电器部件 台湾奇美:家电部件;电动工具;电子
公司地址	广州市南沙区丰泽东路106号(自编1号楼)X130 1-E014087(注册地址)
联系电话	18938547875 18938547875

产品详情

POLYLAC PA-765B	台湾奇美	ABS	
POLYLAC PA-763	台湾奇美	ABS	
POLYLAC PA-757H	台湾奇美	ABS	
POLYLAC PA-727	台湾奇美	ABS	
POLYLAC PA-746H	台湾奇美	ABS	
KIBILAC PW-997S	台湾奇美	ASA	
POLYLAC PA-709S	台湾奇美	ABS	
WONDERLITE PC-122U	台湾奇美	PC

Performance: mechanical properties: density, hardness, surface resistivity, dielectric properties, tensile properties, impact properties, tearing properties, compression properties, bonding strength, wear resistance, low temperature properties, resilience; Aging performance: Heat Aging, ozone aging, UV lamp aging, salt fog aging, xenon lamp aging, carbon arc lamp aging, halogen lamp aging; Liquid resistance: lubricating oil, gasoline, oil, acid, alkali, organic solvent,

water; Combustion performance: vertical combustion, alcohol torch combustion, roadway propane combustion, smoke density, combustion rate, effective combustion calorific value, total smoke emission applicable performance: hydraulic pressure, pulse test, conductivity, water tightness, air tightness; Production parameters: melting index, viscosity, mold shrinkage, melting temperature and other uses: ABS resin is widely used in automotive industry. In the electrical instrumentation industry and the mechanical industry, often used for gears, auto parts, fenders, handrails, refrigerator lining, blades, bearings, handles, pipes, joints, instrument shell, dashboard, basin helmet, etc. . In the home appliances and
