

金属压块机/铁屑压块机/铜屑压块机

产品名称	金属压块机/铁屑压块机/铜屑压块机
公司名称	郑州市鑫源液压机械有限公司
价格	.00/个
规格参数	品牌:鑫源 种类:压力机 型号:XY32-300
公司地址	巩义市孝站路中段
联系电话	0371-64319672

产品详情

品牌	鑫源	种类	压力机
型号	XY32-300	别名	金属屑压块机
用途	用于铸造厂，五金厂	电动机功率	22 (kw)
外形尺寸	3600*2500*3300 (mm)	重量	8 (t)

“鑫源”牌液压金属屑高密压块机主要用于对各种金属屑（铁屑、铜屑、铝屑等）、粉粒状金属粉（铁粉、铝粉、铜粉、铅粉等）、冶炼添加剂、海绵铁等在不加入任何粘合剂的情况下压制成高密度圆柱形饼块（重量2-8公斤），饼块密度可达5t/m³以上（原材料不同，压出饼块密度不重量也不相同），压制成的饼块可直接投炉使用，铸铁个牌号可达ht200-250，每吨铸件可节约成本700元左右。该机采用先进的液压传动技术，使用优质的耐磨油封，油缸采用国内最新高科技工艺加工组装，从而保证连续运转不减弱油缸压力，经久耐用，运行平稳；电脑控制，自动化程度高，故障率低，维护容易等。

"xinyuan" brand hydraulic metal scrap briquetting machine is mainly used for high-density metal scrap (scrap iron, copper scrap, aluminum scrap, etc.), granular powder metal powder (iron powder, aluminum powder, copper powder, lead powder, etc.), metallurgical additives, sponge iron, etc., without adding any binder pressed into the case of cylindrical cakes of high-density block (weight 2-8 kg), the cake density of up to 5t/m³ block above (the different raw materials, press out the cake block density and not quantity is not the same), pressed into the cake pieces can be directly cast furnace use, cast iron brands of up to ht200-250, can save the cost per ton of castings of about usd 100.

the machine uses advanced hydraulic drive technology, the use of high-quality wear-resistant oil seals, cylinder using the latest high-tech process of domestic processing and assembly, thus ensuring the continuous operation does not weaken the pressure tank, durable, smooth operation; computer-controlled high degree of automation the failure rate is low, easy maintenance and so on.联系电话：0371-64319672 0371-64597222 传真：0371-64319808
