产品详情

彩钢板的颜色可以按用户的要求分成很多种类如桔黄、奶黄、深天蓝、海蓝、绯红、砖红、瓷蓝等。

彩涂钢板市场用途主要分为建筑、家电和交通运输等三部分，其中建筑领域所占比例大，家电业次之，交通运输业只占较少一部分。

建筑用彩钢板一般以热镀锌钢板和热镀铝锌钢板为基板，主要加工成瓦楞板或与聚氨酯复合夹芯板后，用于建造钢结构厂房、机场、库房、冷冻库等工业和商业建筑的屋顶、墙面、门。

家电彩板一般以电镀锌和冷板为基板，用于生产冰箱和大型空调系统，冰柜、面包机、家具等。

交通运输业上一般以电镀锌和冷板为基板，主要用于油底壳，汽车内饰件等。

The color of color steel plate can be divided into many types according to the user's requirements, such as orange, cream, deep sky blue, sea blue, and FeiRed, brick red, porcelain blue, etc. The market use of color coated steel plate is mainly divided into three parts: construction, household appliances and transportation. The construction sector accounts for a large proportion, followed by household appliances, and the transportation industry only accounts for a small part. The color steel plate for building is generally made of hot-dip galvanized steel plate and hot-dip aluminium-zinc steel plate as the base plate, which is mainly processed into corrugated plate or composite sandwich plate with polyurethane, and then used to build the roof, wall and door of industrial and commercial buildings such as steel structure workshop, airport, warehouse, freezer, etc. The color plate of household appliances is generally based on galvanized and cold plate, which is used to produce refrigerators and large air conditioning systems, freezers, bakers, furniture, etc. In the transportation industry, galvanization and cold plate are generally used as the base plate, mainly for oil pan, automobile interior trim, etc.
