2024第72回日本国際電力産業展示会

JECA FAIR

会期：2024年05月29-31日

開催パビリオン：NITEXメッセ大阪

開催期間：1年に1回

主催：日本工業部

組織展：上海貿昇展覽服務有限公司—日本展専門服務商

展示会の概要：

新製品新技術を大限に展示する日本大級の電気機器総合展示会

今回チャンは、2024年5月29日（水）から5月31日（金）までの3日間、大阪ビッグサイトにて「JECA FAIR 2024~第72回電設工業展」を開催します。昭和32年（1957年）から開催され、今回で71回目となる本展示会では、電気機器関連の機材、工具、計測器、ソフトウェア、システムなどの新製品の紹介をはじめ、施工技術、施工実績、学術的成果を紹介し、電気機器業界の魅力を発信します。パワーや働き方などを紹介する各種イベントを含め、あらゆる情報を発信する国内大級の電気機器総合展示会。電気機器業界は、人々の生活にも密着した場所で人々の生活やライフラインを支え、住宅やオフィスビル、工場などの電気機器の建設や維持管理を通じて、国民生活の向上と経済の持続的成長を支える役割を担っています。

電設技術の発達で社会が便利になる一方、温室効果ガス排出量の増加で地球温暖化は確実に進んでい

る。環境に配慮し、太陽光や風力を使った自然可能エネルギーの活用が増えるとみられている。これからの地球環境を守り、未来世代にも平和で豊かな暮らしを継承できる社会の実現に向けてJECA FAIR 2023の開催テーマは、「持続可能な社会の実現に向けて！歩を踏み出した電設技術」。

未来を担う学生や電気機器業界の関係者が一堂に会する「JECA」FAIR」は、出展者来場者に新たなビジネスチャンスをもたらすべく、さらに内容を充実させ、第71回にふさわしい展示会にしていきたいと思いますので、ぜひお立ち寄りください。

出展範囲：

送配電設備、電網自動化技術と設備、電気エネルギー計量製品、発電設備、電力施工工具、低圧電気製品、建築電気、発電所環境保護製品、電線/ケーブル類、鋼制導管/樹脂製導管、回路材料（樹脂など）と付属品、配管配線支持材料、配線材料、ケーブルボックス、風道、棚など。架線設備。外線接地材。地中線、配線器具、照明器具照明制御装置、分電盤監視制御装置、電力関連機器材料制御機器、蓄電関連機器、自家発電機、新エネルギー省エネ、通信情報機器機器ソフトウェア、災害警報機器、防犯機器等の防災機器、避雷針機器、工作機械、計測機器、その他

The 71st Japan International Electric Power Industry Exhibition in 2023

Exhibition time: May 24-26,2023

Pavilion: NITEX Exhibition Hall

Host cycle: once a year

Sponsor: Japan Electric Industry Association

Deadline for registration: January 25,2023

Exhibition organizer: Shanghai Trade Exhibition Service Co., LTD. - professional service provider of Japan Exhibition

Introduction to the exhibition:

Japan's largest electrical equipment comprehensive display of new products and new technologies

Zhang will hold a three-day "JECA FAIR 2023 ~ 71st Electric Industry Exhibition" from May 24,2023 to May 26 (Friday) in Osaka International Convention and Exhibition Center. From Showa 32 years (1957), this is the 71st time of this exhibition, with the introduction of electrical equipment related equipment, tools, meters, software, systems and other new products as the beginning, the introduction of construction technology, construction achievements, academic achievements, show the charm of the electrical equipment industry. This is the largest comprehensive exhibition of electrical equipment in China, including various activities such as introducing strength and working methods, delivering all information. The electrical equipment industry supports people's life and living line in the place where people live most closely. Through the construction and maintenance management of electrical equipment in residences, office buildings, and factories, it plays a role in supporting the improvement of national life and the sustained growth of economy.

With the development of electrical technology, society has become more convenient. On the other hand, global warming is indeed growing due to the increase in greenhouse gas emissions. Given the environment, the active use of natural possible energy sources using solar energy and wind power is considered to increase. In order to protect the

future earth environment, the future generations can also inherit the peaceful and rich life of the society JECA FAIR 2023 theme is " for the sustainable development of the society! The first step of the electric technology."

"JECA" FAIR ", in order to bring new business opportunities to exhibitors and visitors, we will further enrich the content of the exhibition, to create a line with the 71st exhibition, please be sure to come to the exhibition.

Scope of exhibition:

Transmission and distribution equipment, power grid automation technology and equipment, energy metering products, power generation equipment, power construction tools, low voltage appliances, building electrical, power plant environmental protection products, wire / cable, steel catheter / into resin catheter, circuit materials (resin, etc.) and accessories, pipe wiring support materials, wiring materials, wire box, air duct, shelves, etc. Overhead line equipment, external grounding materials, underground line, wiring equipment, lighting equipment / lighting control devices, switchboard / monitoring control devices, power related equipment materials / control equipment, power storage related equipment, private generators, new energy / energy saving, communication / information equipment / equipment software, disaster alarm equipment, crime prevention equipment and other disaster prevention equipment, lightning rod equipment, machine tools, measuring instruments, others
