价格	.00/件
规格参数	
公司地址	深圳市宝安区固戍一路洪辉科创空间3F
联系电话	18576464303 18576464303

产品详情

多型号申请加拿大的ISED认证时，要求每个申请的型号都必须提供产品的外观照片和内部照片，即使只是型号名称差异。后续的认证申请，包括未发证和后面增加型号的，都需要提供所有型号的外部照和内部照。

法规参见下文：ISED has been lenient in the past with submission of some exhibits Family certification rarely includes more than one set of internal & external photos RSP-100 Form C is however quite clear on this: Internal and External photos of the product versions in the application are required This requirement is not just for one product version. It applies to all product versions in a family ISED is now requesting to see internal and external photos of all models / product versions in a family This is applicable whether or not an applicant is stating that all models are identical This is applicable for all new family certifications or addition of models via Permissive Change application Applications received by ISED which do not include a set of internal & external photos for each model /product versions, will be sent back to the CB.
