

## 【aidlab】 OEM:Taq DNA Polymerase

|      |                                 |
|------|---------------------------------|
| 产品名称 | 【aidlab】 OEM:Taq DNA Polymerase |
| 公司名称 | 北京艾德莱生物科技有限公司                   |
| 价格   | .00/Box                         |
| 规格参数 |                                 |
| 公司地址 | 北京市海淀区上地启迪科技园紫成创业园C126-130室     |
| 联系电话 | 86-01082796972 13691030050      |

## 产品详情

【aidlab】 OEM:Taq DNA Polymerase Large scale production of Taq DNA Polymerase by auto fermentator High purity , High quality low price! Supply OEM & Bulk Lowest price no company can offer. Low to 1500\$ for 1 million Units! Aidlab is the Biotechnology manufacturer with advanced equipment, consist of many biological technology specialized person, enzyme engineering technology is one of our core . One of Our key tech platform is the Auto fermentator and purification of enzyme. We can manufacture from 5 liter -150 liter fermentator and to express and purify any kind of protein or enzyme you want for research use or medical use. We can take any tech service of protein expression and purification. Taq DNA polymerase is isolated from the E. coli cloning Thermus molecular weight of the product is approximately 94 kDa. It is expressed in large scale in our auto fermentator and purified by our proprietary tech with expensive purification device for medical use. Characteristics: ( 1 ) high-sensitivity and high purity ( 2 ) high amplification efficiency ( 3 ) highly consistent because of large scale production(200 million units with 1 time production of 100 liter fermentation) ( 4 ) Lowest price no company can offer. Low to 1500\$ for 1 million Units! All the products passed the QC inspection strictly. We supply OEM and Bulk service for all products and keep secret strictly, hope we can establish steady and long-term business cooperation between us.
