

# FLUOROLUBE OILS HO-125

产品名称	FLUOROLUBE OILS HO-125
公司名称	上海恩莱保贸易有限公司
价格	.00/件
规格参数	
公司地址	上海市松江区金高路2388号813室
联系电话	86-021-20228098 13391171050

## 产品详情

FLUOROLUBE oils are liquid lubricants that deliver long-lasting lubrication for metallic surfaces (except copper, aluminum, and magnesium) in applications requiring stability and performance in strongly acidic and/or oxidizing environments. They are saturated, hydrogen-free, low-molecular-weight polymers of chlorotrifluoroethylene (CTFE) that combine high-temperature performance, non-flammability and chemical inertness under many demanding conditions. Available in a range of viscosities, FLUOROLUBE oils are compatible with chlorine, oxygen, hydrogen peroxide, red fuming nitric acid and other strong oxidizing agents, and are nonflammable.

FLUOROLUBE 润滑油是液体润滑剂，可为金属表面(铜、铝和镁除外)提供持久润滑，适用于在强酸性和/或氧化环境中要求稳定性和性能的应用。它们是饱和、无氢、低分子量的三氟氯乙烯(CTFE)聚合物，在许多苛刻的条件下结合了高温性能、不可燃性和化学惰性。可在一系列粘度，FLUOROLUBE 油兼容氯，氧，双氧水，和其他强氧化剂，是不可燃的。
