

# FZ91PM生物降解树脂PBS 医疗用品农用薄膜可降解塑料环保新材料

产品名称	FZ91PM生物降解树脂PBS 医疗用品农用薄膜可降解塑料环保新材料
公司名称	上海欧硕塑料有限公司
价格	.00/件
规格参数	厂家(产地):生物降解树脂PBS 形式:可降解塑料环保新材料 FZ91PM:医疗用品
公司地址	上海市奉贤区明城路1088弄7号1-2层
联系电话	159-02131506 15902131506

## 产品详情

PTTMCC Blochem - A joint venture of GC and MCC

Our Plant

Paper Coating as Key Applications

Mulching Films

Ambient compostable on the field

Flexible packaging

Excellent heat-seal performance

FCN approval

Bubble Packaging

Compostable Bags

Excellent compostability at room temperature

Cutlery

Excellent compostability

Higher heat resistance and impact strength (compared to PLA)

EPS Foam replacement application

PLA Modifier

Reinforce weakness of PLA (heat resistance, flexibility, ambient biodegradability, etc.)

Examples include compostable coffee capsules

Bio-PBS product life cycle

BioPBS get degraded when there are 3 catalysts present.

Bacteria \*

Moisture

Temperature

\*Air-bourne bacteria is not strong enough to break chemical chain. Bacteria in soil is ideal. So BioPBS ' s product shelf life is adequate.

Eg. Paper cup would last at least 2 years.

Why BioPBS Cup: BioPBS Cup is biodegradable in soil within 4 months
