

ultrasonic flowmeter

产品名称	ultrasonic flowmeter
公司名称	上海阳光仪器仪表有限公司
价格	面议
规格参数	
公司地址	上海市闵行区七莘路3333弄11#
联系电话	021-49169267 18609490317

产品详情

Handhold ultrasonic flowmeter(handable ultrasonic flow meter, portable ultrasonic flowmeter)

Functions and characteristics:

- 1) Non-wetted surface meter is used in measure uneasy touch and observe flow And big pipe
- 2) Don't change the flow state and bring additive resistance, the meter installation and examine and repair would not impact production. The meter is a perfect save resource type flowmeter
- 3) The price is low
- 4) The measured hardly impact the veracity medium

Features:

- 1) Accuracy: +/-2%Fs (full range)
- 2) Output of direct current signal: 4 - 20mA, impedance not more than 600 ohm
- 3) Medium temperature: -20 ~ +150

- 4) Pulse output accumulative flow: Light isolation, collector, emitter open circuit passive output, pulse width 2ms
- 5) Serial communication: RS485 or RS232 (opt)
- 6) State of fluid: Full-pipe: Axis symmetry

- 7) Power: 220V+/-10% AC 50Hz
- 8) Printer: (Opt.) TpP-16 mini-printer
- 9) Environment temperature: -10 ~ +45

- 10) Environment humidity: Relative humidity not more than 85%
- 11) Weight: Stationary type 9kg, portable type 5kg
- 12) Velocity of flow: 0.1 - 12m/s
