本系列产

品是引进德国技术，结合我国纯生啤酒生产待业的特点设计开发的纯生啤酒无菌灌装设备。本机具有优良的运行可靠

性，完善的冲洗、灌装、压盖、消毒杀菌等功能，实现无菌啤酒在无菌的环境中灌入无菌容器中，产量从50 00至36 00

HGX灌装压盖机

产品描述 Description of the product:

本机是在本公司多年生产经验后结合黄酒待业特点开发的灌装压盖一体机，主要用于黄酒的高温、高温灌装旋盖，结合UHT超高温瞬时杀菌系统自动循环工作。该机设计科学合理，系统完善。操作维修方便，自动化程度高。也可用于其他不含气饮料的玻璃瓶高温、常温灌装压盖。 This machine is a filling and capping integrated machine after many years manufacture experience in the company combining with the development of wine industry characteristics,mainly used for the wine filling at high temperature or room temperature,combining with instantaneous UHT ultra-high temperature sterilization system to automatically cycle work.This machine is designed scientifically and logically ,the system is perfect .The operation and maintenance are convenience,a high edgree of automatic.It can also be used for toher non-gas beverage bottle,filling and capping at high-temperature or room temperature.
