产品详情

Test item 测试名称: synthetic surface 室外用人工草皮和针刺表面 - football and rugby 足球和橄榄球

Lead time 测试周期: regular 常规 40 working days

Sample size 送样规格:

- 2 no of 1x 1m carpet

- 2 no of 1x 1m shockpad

- A strip of turf carpet, 16m long x 1m wide, cut in the longitudinal direction of manufacture.

- A strip of turf carpet, 1m long x 16m wide, assembled in the transverse direction of manufacture, seamed or jointed as necessary in the manner which would be employed in practice.

Note: These samples should be loosely rolled around large diameter cores to avoid flattening of the pile in transit.

- If the product incorporates sand or other filling in the pile surface, then sufficient sand or other filler is required to completely fill both of the above samples, to the same extent that the surface would be filled in practice.

Note: Any such filling should be supplied in sealed sacks of 25kg maximum weight
