

广州市谊合电子一级代理ERNI 提供ERNI 214443

产品名称	广州市谊合电子一级代理ERNI 提供ERNI 214443
公司名称	广州市谊合电子有限公司常州分公司
价格	1.00/盒
规格参数	
公司地址	江苏省常州市新北区通江中路77号府琛商务广场2号楼C座833室
联系电话	86-051985600771 18912311690

产品详情

Pitch: 2.5 x 1.5mm Pins: 20, 30, 40 pairs Termination: Pressfit Standard: n.a. Datarate: 10 GBit/s Applications: ERmet ZD connectors were developed for differential high-speed signal transmission in telecom applications with data rates of up to 10 Gbits/sec. This robust, high quality modular connector system is just as well-suited for use in conjunction with the 2mm HM (IED 61076-4-101) ERmet line of connectors. The inline design of the signal and ground contacts makes simple, economic routing (conductor track routing) possible. Signal and ground contacts have different connection levels with a gap of 1.5mm, thus ensuring a safe connection. In addition, the contacts are assembled into a robust housing. The ERmet ZD connector utilizes an optimal grid construction that reduces signal interference and offers ample room for conductor track routing. Its optimized design and effective shielding allow the ERmet ZD system to exhibit superb performance when it comes to crosstalk and reflections. The ERmet ZD connector has been selected as the backplane interconnect for the PICMG 3.x (ATCA) industry standard. ?Termination:Pressfit ?Signal Pins:40 ?Board Type:PXI ?Keying Designator:F2? ?Class:2 ?Shielded:Yes ?RoHS Compliant:Yes 详情请电话联系:
