## 产品详情

### 单工位免缸C型射蜡机 Simplex no-cylinder C type wax injection machine

本机适用于大型铸件的蜡模制造，。二次高压补蜡、射蜡配合流量控制，可防止厚大蜡模凹陷，保证蜡模表面同模具表面的充分接触，完美复制模具表面光洁度。特殊的压模板恒温装置，取模辅助滑板左右(前后)滑动设计。

1. This machine is suitable for wax mold manufacturing of large castings,. The secondary high-pressure wax supplement and wax injection combined with flow control can prevent the depression of thick and large wax mold, ensure the full contact between the wax mold surface and the mold surface, and perfectly copy the mold surface finish. Special constant temperature device for pressing formwork, with left and right (front and rear) sliding design of formwork auxiliary sliding plate.
