

蓄热式节能燃气焙烧炉Regenerative energy-saving gas roasting furnace

产品名称	蓄热式节能燃气焙烧炉Regenerative energy-saving gas roasting furnace
公司名称	东莞市诺科机械设备有限公司
价格	.00/件
规格参数	额定温度:1200
公司地址	东莞市谢岗镇大龙村大墩二村民小组（注册地址）
联系电话	19898004270

产品详情

1.蓄热式节能燃气焙烧炉Regenerative energy-saving gas roasting furnace

1、适用于天然气或者液化石油气等燃料。

2、配备自动电子打火装置，两段式火焰控制，恒温后大小火长短自动交替。独特的变频技术，可自动调节风量输出，达到燃气的完全充分燃烧。

3.可以根据顾客需求定制大小，满足客户产能要求.

1, suitable for natural gas or liquefied petroleum gas and other fuels.

2. Equipped with automatic electronic ignition device and two-stage flame control, the length of the fire will change automatically after constant temperature. Unique frequency conversion technology, can automatically adjust the output of air volume, to achieve full combustion of gas.

3. Size can be customized according to customer needs to meet customer capacity requirements.
