产品详情

冠盈科技-专业测漏机(检漏机, 试漏机, 检测仪, 检漏仪, 测漏仪, 气密性检测仪)研发制造, 塑料包装食品饮料医药金属玻璃陶瓷电子电器汽车摩托车汽油管道等气密性检测。

本机采用可编程PLC及人机界面控制, 方便扩展及检测流程工艺的不断改善。人机界面设置技术参数, 数据直观显示。全程数据监控模式, 异常报警功能等。双工位至多工位同时检测, 成倍提升检测效率, 功耗低节约能源。检测至关键微漏状态, 防止包装产品由泄漏所引起的质量事故和导致污染等。

检测速度: 5400-7200/小时

检测容量: 5ml-5L 可根据客户产品定制

设备规格: 1700*1500*800

可调节高度范围: 900-1200mm

Guan Ying-professional leak (leak detection, leak test, detector, leak detectors, leak detector, air-tightness instrument) development, and manufacturing, food beverage pharmaceutical plastic packaging metal glass ceramic electric car motorcycle petrol pipe airtight testing.

This machine adopts programmable PLC and man-machine interface control, easy to extend and test process-process of continuous improvement. Human-machine interface set technical parameters, data visualization. Full data monitoring mode, exception alarm function. Double-up to working position determination, greatly improving detection efficiency, low power consumption to save energy. Micro-leak detection to critical state, prevent packaging product quality accidents caused by the leak and cause pollution.

Detection speed: 5400-7200 pcs/h

Measuring capacity: 5ml-5L can be customized according to customer product

Equipment: 1700*1500*800

Adjustable height range: 900-1200mm
