产品详情

The FH series of global exhibitions are interconnected. Through cooperation with government agencies, industry associations, professional media, and other organizations, each exhibition fully leverages the role of an exhibition platform, providing customers with solutions and opportunities for development needs, promoting the development of various industries in the catering and food industry, leading enterprises to connect with the forefront of global business, and continuously developing and innovating.

The warmth is gradually increasing, the dawn is ahead, and the catering and food industry is bound to recover!

Promote the revitalization of the exhibition industry, attract overseas enterprises to "come in", and lead more domestic enterprises to "go out". FHC is leading the way! In 2023, we will work hard and work together!
