

组合楼板 彩钢 北京

产品名称	组合楼板 彩钢 北京
公司名称	北京博泰鑫源彩钢有限公司
价格	38.00/米
规格参数	材质:彩钢 产地:北京 规格:YX75-200-600
公司地址	中国 北京 北京市 昌平区马池口镇亭自庄南侧
联系电话	86-010-60752978/18

产品详情

材质	彩钢	产地	北京
规格	YX75-200-600	品牌	博泰鑫源
用途	组合楼板		

北京博泰鑫源彩钢结构有限公司,集设计、生产、加工、经营于一体的集团性经济实体,公司拥有各种压型板设备、彩色夹芯板生产线、c型钢生产设备等十余条,公司产品主要有彩钢瓦、彩钢板、彩钢夹芯板、岩棉夹芯板、pu聚氨酯夹芯板、eps夹芯板、瓦楞夹芯板、彩钢压型瓦、彩钢琉璃瓦、c/z型钢、彩钢活动房、阳光瓦活动房等,产品广泛应用于大型工业厂房、仓库、体育馆、超市、医院、冷库、活动房、建筑物加层、洁净车间以及需保温隔热防火的场所。产品外形美观、色泽艳丽,承重、保温、防火、防水性能强。公司产品出口朝鲜、伊拉克、澳大利亚、苏丹等国家,欢迎广大客户来电洽谈!博泰鑫源全体员工真诚期待与您的合作!

北京博泰鑫源彩钢结构有限公司是一家专业生产彩钢夹芯板的厂家,我公司生产的彩钢岩棉夹芯板具有以下优点:

1、轻平方米重量低于14kg可以充分减少结构负荷,降低结构造价。

安装快捷 该复合板重量轻,拼接式安装及可随意切割的特点,决定其安装的简便,可大大的提高效益,节省工期。

2、防火彩色复合夹芯板的面质材料及保温材料,完全能够满足防火规范要求。

3、耐久多种研究显示,及国外40年以上广泛使用证实:经特殊涂层处理的彩色钢板保质期在10-15年,以后每隔10年喷防腐涂料,板材寿命可达35年以上。

4、美观压型钢板清晰的线条多达几十种的颜色,可配合任何风格建筑物的需要,达到令人满意的效果

5、保温隔热该复合板常用保温材料有：岩棉、玻璃纤维棉、聚苯乙烯、聚氨酯等，导热系数低，具有良好保温隔热效果。

6、高强度采用高强度钢板为基材（抗张拉强度5600kg/cm）再加上最先进的设计与滚压成型，具有极佳的结构特性。公司产品出口朝鲜、伊拉克、澳大利亚、苏丹等国家，欢迎广大客户来电洽谈！博泰鑫源全体员工真诚期待与您的合作！

beijing botai xinyuan colored steel structure co., ltd. integrates design, production, processing and operation of an jituanxing economic entity, company has all kinds of pressure xingban equipment, colored sandwich board production line, c payments production equipment more than ten bar, the major products are caigang watts, choi steel, steel sandwich panels, rock wool laminboard, pu pu laminboard, eps sandwich board, corrugated laminboard, caigang pressure type watts, colored glazed tile, c/z purline, caigang choi, sunshine watts choi etc, the products are widely used in large industrial workshops, warehouses, gymnasium, supermarket, hospitals, refrigerator, choi, buildings, adding storeys, clean workshop and need insulation fire places. product appearance, colour and lustre is gorgeous, bearing, heat preservation, fire prevention, waterproof properties is strong. company products are exported to north korea, iraq, australia, sudan and other countries, welcome the masses of customer calls negotiate! botai xinyuan staff sincerely look forward to cooperating with you!

beijing botai xinyuan colored steel structure co., ltd. is a professional production of steel sandwich panels manufacturers, our company produces the caigang rock wool laminboard, has the following advantages:

1, light weight below 14kg can fully square reduces structural load, reduce the cost structure.

fast installation the marble lay light, mosaics type installation and optional cutting characteristics, decide its installation simple, can greatly improve efficiency, save time.

2, fireproof color composite laminboard face that anticipates the heat preservation material, can fully satisfy the code for fire protection requirement.

3, durable various research shows, and foreign 40 years widely used confirmed: via special coating processing of color steel shelf life in 10-15 years every 10 years, after spraying coatings, plank life can reach 35 years.

4, beautiful corrugated steel sheet clear line up to several kinds of color, can cooperate with any style of buildings need, achieve satisfactory results

5 the marble, insulation heat preservation material used are: rock wool, glass fiber cotton, polystyrene, polyurethane etc, low thermal conductivity, good thermal insulation effects.

6, high strength uses high strength steel substrate (tensile strength of 5600kg/cm) plus the most advanced design and roll forming, has the extremely structure characteristics. company products are exported to north korea, iraq, australia, sudan and other countries, welcome the masses of customer calls negotiate! botai xinyuan staff sincerely look forward to cooperating with you!
