

欧森科技 盘式电机定子自动嵌绕线机 质量有保障支持定制

产品名称	欧森科技 盘式电机定子自动嵌绕线机 质量有保障支持定制
公司名称	杭州欧森科技有限公司
价格	1.00/件
规格参数	品牌:欧森科技 是否定制:是 产地:浙江
公司地址	杭州市余杭区余杭街道文一西路1818-1号1幢中国杭州5G创新园4楼435室
联系电话	0571-87208795 13515812301

产品详情

我们推出的可用于氢燃料电池氢气循环泵电机、轮毂电机、轮边电机等盘式电机中的盘式电机定子自动嵌绕线机，拥有多项优点。

Disc motor stator automatic embedding and winding machine:

Our disc motor stator automatic embedding and winding machine, which can be used in disc motors such as hydrogen fuel cell hydrogen circulation pump motors, hub motors, and wheel edge motors, has multiple advantages.

1. High speed: higher production efficiency, shorter manufacturing cycles, and the ability to save more human

resources and reduce labor intensity during work. If you use our equipment, you will be able to quickly and effectively produce disc motors.

2. High reliability: The equipment itself has high quality, high manufacturing accuracy, and can ensure more stable performance during long-term use.

3. Product consistency: Due to the use of fully automated design and manufacturing, compared to manual manufacturing, it can improve work efficiency, avoid errors and quality issues that may be caused by manual operations, and save labor costs.

The automatic embedding and winding function of the stator of the disc motor greatly helps to reduce the cost of the hydrogen fuel cell circulating pump motor and expand the popularity of the hydrogen fuel cell circulating pump.
