## ???????? DHL Supply Chain ? Accuray

DHL Supply Chain, the Americas and global leader in contract logistics, and Accuray Incorporated (NASDAQ: ARAY) announced today they have entered into a global service parts logistics partnership that will further strengthen the Accuray aftermarket supply chain and expand the company's high

quality customer service globally. The goal of the agreement is to provide medical care teams with continual access to the radiotherapy technologies they need to deliver shorter, personalized and effective treatments to patients with cancerous or benign tumors, or neurologic disorders.

Mike Hoge, SVP, global operations at Accuray said, "We are excited to partner with DHL. The Accuray supply chain and service teams are focused on ensuring our customers have seamless access to our lifesaving equipment. We believe the enhanced capabilities offered by a world class logistics partner like DHL will help us to do just that."

DHL Supply Chain will establish a dedicated global service logistics network that will span 34 warehousing sites in 16 countries to support Accuray service technicians with increased reliability and enhanced visibility on parts for its advanced radiotherapy systems. Three regional Control Centers in Columbus, Ohio, USA, Budapest, Hungary and Singapore will provide 24/7 support to the network, supervising the global operations and tracking vendor performance. DHL's proprietary software tools, including mySupplyChain will provide live, real-time visibility on inventory in transit for technicians in the field and provide the Accuray supply chain teams with enhanced reporting on performance.
