

日本可乐丽化EXCEVAL RS-2817SB EVA 生物可降解 水溶性

产品名称	日本可乐丽化EXCEVAL RS-2817SB EVA 生物可降解 水溶性
公司名称	深圳市嘉誉鑫科技有限公司
价格	.00/件
规格参数	
公司地址	深圳市龙华区大浪街道高峰社区长燊大厦3层
联系电话	1326-5555881 13265555881

产品详情

日本可乐丽化EXCEVAL RS-2817SB EVA

EXCEVAL RS-2817SB

Ethylene Vinyl Acetate Copolymer

Kuraray Co., Ltd.

产品说明：

Exceval is the trademark of Kuraray's novel water soluble polymer, specially designed for "high water resistance". It is commonly known that fully hydrolyzed polyvinyl alcohol shows higher water resistance based on the higher crystallinity than that of partially hydrolyzed polyvinyl alcohol, but "viscosity stability" is the critical problem. Exceval achieves the compatibility of both performances, "high water resistance" and "viscosity stability" based on Kuraray's accumulated technology. Medium hydrolyzed grade

物性信息：

基本信息

共聚物

生物可降解

水溶性

吸水低或不吸水

中等粘性

涂层应用

用途

粘合剂

纸张涂料
粒子

形式
物理性能
容量
额定值
单位制
测试方法
23 到 30

灰份含量 2 0.40

挥发物 3 5.0

补充信息
额定值
单位制
96 到 98

备注 4 % aqueous solution at 20 ° C determined by Brookfield viscometer

2. Calculated as Na₂O

3. After 3 hours' drying at 105 ° C. Methanol content: less than 3 %.
