

# 耐磨损 室内膨胀防火涂料 消防施工用 耐火6小时

产品名称	耐磨损 室内膨胀防火涂料 消防施工用 耐火6小时
公司名称	华运洪通(天津)防火材料有限公司
价格	.00/件
规格参数	
公司地址	河北省廊坊市大城县臧屯镇桑杭村
联系电话	15631672868

## 产品详情

Huayun Hongtong (Tianjin) Fireproofing Materials Co., Ltd. is a leading provider of high-quality fireproofing solutions for various industries. Our latest product, the Indoor Expansion Fireproof Coating, is specifically designed to provide exceptional fire protection for both residential and commercial buildings. This innovative coating has a fire resistance rating of up to 6 hours, making it an ideal choice for fire safety in any environment.

The Indoor Expansion Fireproof Coating utilizes cutting-edge technology to ensure optimal performance and long-lasting durability. One of its key features is its excellent resistance to wear and tear. This means that even in high-traffic areas, where the risk of abrasion is higher, this coating will remain intact and provide reliable fire protection.

But what sets our Indoor Expansion Fireproof Coating apart from other fireproofing products on the market is its unique ability to expand when exposed to high temperatures. This expansion creates a protective barrier that prevents the spread of flames and smoke, giving occupants valuable time to evacuate the building safely. The expansion also helps to seal off any gaps or cracks in the structure, further enhancing the fire resistance of the coated surfaces.

Additionally, our Indoor Expansion Fireproof Coating is easy to apply, making it an excellent choice for fireproofing during construction or renovation projects. It can be spray-applied or roller-applied, allowing for quick and efficient installation. Its versatility also means that it can be used on various surfaces, including concrete, steel, and wood.

Another important factor to consider when purchasing fireproofing materials is their environmental impact. We are proud to say that our Indoor Expansion Fireproof Coating is formulated using environmentally friendly materials that have minimal emissions. This means that not only will you be ensuring the safety of your building and its occupants, but also contributing to a sustainable future.

At Huayun Hongtong (Tianjin) Fireproofing Materials Co., Ltd., we understand the importance of reliable fire protection. That is why we continuously strive to develop innovative solutions, such as our Indoor Expansion Fireproof Coating. With its exceptional fire resistance, wear resistance, and easy application, it is the perfect choice for any fireproofing project.

Exceptional fire resistance rating of up to 6 hours Outstanding wear resistance, suitable for high-traffic areas Unique

expansion ability to create a protective barrier Effortless application with spray or roller Compatible with various surfaces: concrete, steel, wood Environmentally friendly formulation with minimal emissions
