

## OEM数字多道分析器MCA527OEM(OEM+)

产品名称	OEM数字多道分析器MCA527OEM(OEM+)
公司名称	北京华恒鑫达科技发展有限公司
价格	.00/件
规格参数	
公司地址	北京市石景山区石景山路乙18号院D写字楼9层1011号
联系电话	010-88258670 18911834780

## 产品详情

### DESCRIPTION

The MCA527OEM / OEM+ is a compact and low power consuming multichannel analyzer PCB. Designed for the use of NaI- and CdZnTe- detectors, but it may be also usable for other applications such as neutron counters or CsI detectors and other low or medium resolution gamma detectors.

The OEM+ Version operates with 16k channel resolution and is usable for high-resolution HPGE detector purposes. The range of application can be in portal monitors, handheld devices or any other's where an OEM Version meets customer equipment integration- and budget requirements.
