

ABB TC520

产品名称	ABB TC520
公司名称	福建众创高电气设备有限公司
价格	4999.00/件
规格参数	
公司地址	厦门市集美区杏林北路25-6号304室之5（注册地址）
联系电话	15959449722

产品详情

ABB TC520

作为分布式过程IO站为模块化设计，经济、灵活易于安装、接线，并可直接与传动系统连接。其模块及接线端子可任意组合以适用于不同空间及应用要求。

特点

可通过Profibus DP或AF100现场总线通信

每模块及通道状态显示灯易于错误诊断

丰富的I/O模块类型

标准DIN导轨安装

支持电源及总线介质冗余，可无扰动切换

所有输出可强制或预设定

易于连接传动系统.降低通信延迟及节省费用

所有模块注塑成型,防护等级为IP20(IEC529)

I/O模块通过机械锁定键与接线端子锁定

所有模块均可带电插拔

可连接外部本安 隔离器

As a modular design for distributed process IO stations, it is economical, flexible, easy to install, wired, and can be directly connected to the transmission system. Its modules and wiring terminals can be arbitrarily combined to meet different space and application requirements.

characteristic

- Communication can be achieved through Profibus DP or AF100 fieldbus

- Each module and channel status display light is easy to diagnose errors

- Rich types of I/O modules

- Standard DIN rail installation

- Support power supply and bus media redundancy, and can switch without disturbance

- All outputs can be forced or pre-set

Easy to connect transmission system, reduce communication delay and save costs

- All modules are injection molded, with a protection level of IP20 (IEC529)

The I/O module is locked with the wiring terminal through a mechanical locking key

All modules can be plugged and unplugged with power

- Can be connected to external intrinsic safety isolators

功能描述S800 I/O可通过Profibus DP或ABB AF100 现场总线实现与高级控制系统的通信。模块状态由状态显示灯显示，也可通过现场总线获得。数据通过现场总线周期传输，通信模块周期扫描I/O模块，根据模块类型扫描周期设定为 4-108ms
