

中子检测模块

产品名称	中子检测模块
公司名称	北京华恒鑫达科技发展有限公司
价格	.00/件
规格参数	
公司地址	北京市石景山区石景山路乙18号院D写字楼9层1011号
联系电话	010-88258670 18911834780

产品详情

PDT10A and PDT20A Series

PDT10A and PDT20A compact neutron monitoring modules designed for high radiation environments connect directly He-3 detectors. Each instrument contains a precision wide band charge sensitive pre-amplifier followed by an amplifier, wave shaping and discriminator circuits. When connected to He-3 detectors, these instruments detect the presence of charged-sensitive particles. Our focus is to create a compact (1 inch diameter), simple to use, high performance instrument with a variety of features available.
