## 产品详情

PET/ RYNITE(DuPont Rynite 545):

PET RYNITE (DuPont Rynite 545) is a high performance polyethylene terephthalate (PET) resin. It is characterized by its high strength, stiffness, and excellent thermal stability. Rynite 545 is commonly used in applications requiring high mechanical strength and resistance to high temperatures. The material is available in various grades, including RYNITE 1 and RYNITE 2, which offer different levels of performance and processing characteristics.
