产品详情

用于变压器、电机、飞机航空、高铁、地铁、医疗、军事等，耐高压、耐高温，可见以下参数

has unsurpassed dielectric strength in volts-per-mil, coupled with an outstanding thermal rating and conformability. This tape is perfect for insulating connections in high voltage coils and power cables. This product is ideal for use in the aerospace and electrical industries .

Features?Chemically inert with excellent high temperature resistance. Operates over a wide range of temperatures. Impervious to most chemical attacks, including acids, solvents, fuels and most alkalies. Economical with high performance features.
