

氩弧焊钨极，钨电极WP 绿头 2.4mm 3.2mm

产品名称	氩弧焊钨极，钨电极WP 绿头 2.4mm 3.2mm
公司名称	山东先达资源发展有限公司
价格	10.00/kg
规格参数	氩弧焊钨极:2.4mm
公司地址	山东省济南章丘市双泉路1806号
联系电话	0531-83231687 15552539082

Why choose us zander brand welding wire and welding rod?

(1) Good quality with competitive price

(2) Free samples for test welding wire quality

(3) OEM packing accept

(4) Professional Service

Our company policy is quality the first, with aim of establish good and long time business with every customer.

pure Tungsten Electrode

The pure Tungsten Electrode is the one without any addition of oxide. The power of the electrode transgression is as high as 4.5ev. Requiring a high voltage for arc derivation; it has a low current capacity and is easily burnt. It is suitable for application under the condition of AC and in the situation of low welding requirements.

WP Welding Tig Torch Tungsten Electrode

Tungsten Electrode For Tig Welding

*Specification: WT-20 2.4*150mm.

*Various Types are available.

*Conform to ISO 6848 Quality system.

*Prompt delivery.

*Many years experiences on Tungsten electrode.

*Packing: 10 pcs in one plastic box.
