

钨极氩弧焊用钨电极WZ8 WZ3

产品名称	钨极氩弧焊用钨电极WZ8 WZ3
公司名称	山东先达资源发展有限公司
价格	1.60/只
规格参数	先达:WZ8
公司地址	山东省济南章丘市双泉路1806号
联系电话	0531-83231687 15552539082

产品详情

钨极氩弧焊用钨电极WZ8 WZ3

山东铈钨电极 镧钨电极 锆钨电极 钍钨电极 纯钨电极 钇钨电极

山东钨电极WC20 WL20 WY20 WT20 WP Wz8 Wr

WZ3 Tungsten Electrode

Zirconium- Tungsten Electrode boasts a fine performance in welding under the condition of AC and? has a good anti-corrosiveness. Especially in the case of high load of current ,the Zirconium- Tungsten excellent performance is far better than that of other electrodes. When? welded ,the end of zirconium- Tungsten Electrode remains pellet-shaped,reducing the chance of tungsten oozing .It is suitable for welding? magnesium,aluminium and their alloy under alternating current.

contact zander welding industry

WZ8 Tungsten Electrode

Performance:

Balls up easily in AC applications. Handles higher current with less splitting. Improved arc starts and arc stability. Offers minimal tungsten contamination.

Zirconiated Tungsten Electrode :

Zirconiated Tungsten Electrode boasts a fine performance in welding under the condition of AC and has a good anti-corrosiveness. Especially in the case of high load of current, the Zirconium- Tungsten excellent performance is far better than that of other electrodes. When welded ,the end of Zirconiated Tungsten Electrode remains pellet-shaped, reducing the chance of tungsten oozing. It is suitable for welding magnesium, aluminum and their alloy under alternating current.
