### PC Korea LG Plastic Raw Materials

If the PC Korean LG plastic model you are looking for is not listed above, please call our company to inquire. Our company sells a complete range of PC Korean LG plastic models, as there are so many models that they are not listed one by one.

### Physical properties

PC is a non crystalline engineering material with particularly good impact strength, thermal stability, glossiness, antibacterial properties, flame retardancy, and pollution resistance. The notched Izod impact strength of PC is very

high, and the shrinkage rate is usually 0.1%~0.2%.
