

PET日本钟渊L5402Z 代理商

产品名称	PET日本钟渊L5402Z 代理商
公司名称	东莞市博琪塑胶原料有限公司
价格	.00/千克
规格参数	品牌:日本钟渊代理商 型号:L5402Z 产地:日本
公司地址	总部位于香港，大陆公司位于广东省 东莞市。
联系电话	17620537261 13537064918

产品详情

PET日本钟渊L540

商品描述

价格说明

联系我们

规格

20KG/包

加工定制

否

有效成分含量

99

产品特性

白色粉末

是否进口

否

产地

日本

销售方式

品牌经销

类型

标准料

品名

增韧剂

加工级别

挤出级

特性级别

标准级、高抗冲

用途级别

板材级、型材、家电部件

品牌

钟渊

产品说明：

Modified PPE20% Filler reinforced Flame retardant V-0Stiffness High, Warpage Low, Easy Flow

物性信息：

基本性能号

[E82268-100083289](#)

[E82268-250894](#)

[E82268-531714](#)

收缩率 1(2.00 mm)

0.25 到 0.50

吸水率 (23 ° C, 24 hr)

0.060

室外适用性 (Black)

PET is mainly used for fibers, with a small amount used for films and engineering plastics. PET fibers are mainly used in the textile industry. PET film is mainly used for electrical insulation materials, such as capacitors, cable insulation, printed circuit wiring substrates, electrode slot insulation, etc. Another application area of PET film is film substrate and baseband, such as film, X-ray film, recording tape, electronic computer tape, etc. PET films can also be made into metallized films by vacuum aluminum transfer, such as gold and silver wires, micro capacitor films, etc. Another use of PET is in blow molded products, used for packaging polyester bottles, food bottles, cosmetics bottles, bottled water bottles, and so on.

Glass fiber reinforced PET is suitable for the electronic, electrical, and automotive industries. It is used for various coil frames, transformers, television sets, recorder components and casings, car lampholders, lampshades, incandescent lampholders, relays, rectifiers, etc
