产品详情

ypd-30a型智能片剂硬度仪，适用与各大中制药厂，医学院校，药检部门药物研究等单位，对片剂药物进行硬度测试，该仪器采用了传感器电路，数码显示，电机进给机构自动测量，操作方便，测试数据精确，为掌握药物片剂的硬度及包衣，包装运输提供了可靠的依据，并且为片剂的崩解度，释放度（溶出度）等相关实验提供了有力的依据。

测量片剂最大直径: 30mm

测量片剂最大压力: 30kg

测量精度：0.5kg

分辨率：0.1kg

ypd-30a smart tablet hardness tester apply to the tablet in the major pharmaceutical factory, medical institutions, drug sector, such as pharmaceutical research unit. the hardness of the tablets for drug testing. the device uses sensor circuit, a digital display, auto-body electric feed measurement, easy to use, accurate testing data. the hereinbefore in order to grasp the reliable basis of the tablet hardness, coating and transport&packaging. at the same time, also provide a strong basis for the disintegration of the tablet, the release (dissolution) and other related experiments.

the main technical parameters:

max dia. of tablet 30mm

max pressure of tablet 30kg

accuracy of testing 0.5kg

resolution 0.1kg
