

# 专业供应采金淘金设备 小型淘金设备 大型淘金设备 沙金提取设备

产品名称	专业供应采金淘金设备 小型淘金设备 大型淘金设备 沙金提取设备
公司名称	青州市强力挖沙机械厂
价格	68000.00/台
规格参数	加工定制:是 类型:溜槽选矿设备 生产厂商:强力
公司地址	山东青州市山东潍坊青州市黄楼镇开发区
联系电话	086 0536 3836272 13964782605

## 产品详情

山东省青州市强力矿沙机械厂专业从事淘金、沙金提取机械设备研究与制作的厂家。多年来，产品不仅畅销国内，并远销非洲马里、贝宁、安哥拉、尼日利亚、和巴基斯坦、印度尼西亚、马来西亚、塞尔维亚、朝鲜、韩国、乌克兰等国家，得到了国内外广大客户的一致认同。

淘金设备不仅用于河道内作业，而且还能广泛应用于旱地沙金提取。

在河道上的淘金设备一般指淘金船，又叫采金船（一般指挖沙淘金船和抽砂是淘金），是一种集采矿作业、选矿作业为一体的水上联合工厂，是一种砂金开采设备，它包括采掘掘系统、选矿及供水系统、废矿及尾矿排弃系统、甲板机械、船体、上部钢构、供电等几个基本系统。

在旱地上主要采用旱地振动筛选采金机械，原料通过运输设备卸至储矿仓，再通过筛板进入振动筛，筛下产品直接进入溜槽选矿，得到粗精矿。粗精矿进入摇床或精溜床。然后用淘金盘清洗，再经吹选获取自然金！！！！

从选矿工艺

ql系列

淘金设备可分为：抽沙式淘金机械、挖沙式淘金机械、离心式淘金机械、溜槽式淘金机械、流板式淘金机械、振动式淘金机械。

shandong qingzhoushi strong ore sand machinery factory is specialized in gold, alluvial gold extraction equipment research and production of factory. for many years, the product not only best-selling domestic and exported to africa, benin, angola, mali, nigeria, and pakistan, north korea, south korea, indonesia, malaysia, serbia, ukraine and other countries, the domestic and foreign customers consistent approval.

equipment is not only used to working within the river channel, but also can be widely used in the dryland alluvial gold extraction.

gold panning equipment generally refers to the ship on the river, also called gold dredger (generally refers to sand-excavating gold mining ship and pumping sand gold), is a collection of mining, beneficiation production for the integration of water factory, is a kind of placer gold mining equipment, which includes excavation digging, mineral and water supply systems, waste ore and tailing abandoned system, upper deck machinery, ship, steel structure, power supply etc. several basic system.

in dry land mainly uses the dry vibration screening gold mining machinery, raw materials, through the transportation equipment unloading to store ore bin, again through the sieve plate into the sieve, sieve under the product directly into the chute ore dressing, get rough concentrate. essence of rough concentrate into a table or bed. and then clean with pan, after blowing chooses to obtain natural gold!!!!!!!!!!!!!!

from the process of

ql series

gold mining equipment can be divided into: pumping sand type gold mining machinery, sand-excavating type gold panning machine, centrifugal machine, the chute type gold machinery, plate gold, gold vibrating machinery.
