B2B AREA AS A MAGNET FOR TRADE VISITORS

This year, the exhibition hall 21B was fully booked and had special opening hours. The B2B area was exclusively for trade visitors, providing a quiet and professional atmosphere where contacts were made and deals were finalized. Customers had the opportunity to purchase directly from the manufacturer at favorable conditions, without the involvement of any intermediary wholesalers. In addition to this, there were numerous presentations by international speakers and expert panels, along with information in a calm environment for business partners, trade visitors, and interested individuals. Overall, the exhibition hall provided a comprehensive package to cater to the needs of its diverse audience.
