

# 锅炉减速机，创新突破，以质而优，优质企业

产品名称	锅炉减速机，创新突破，以质而优，优质企业
公司名称	常州市武鸿锅炉辅机设备有限公司
价格	面议
规格参数	
公司地址	常州市武进区横林镇横玉路240号
联系电话	0519-88727780 13861154777

## 产品详情

锅炉减速机○13861154777 常州市武鸿锅炉辅机设备有限公司○燃油时应常常定时查看油枪雾化状况，避免油枪烧坏，很多助燃油没有通过雾化直接喷到炉膛内或管壁上。运转中如发现排烟温度不正常升高时，应依据实践运转状况做好运转剖析校正温度测点，不行盲目处置。开大添加风量时应缓慢当心，应超前做好过热汽温调整加强对过热器管壁温度监督。the fuel should be used regularly check gun atomizing status, avoid the oil burned out, many oil did not pass the atomization spray directly onto the hearth or pipe wall. operation such as exhaust temperature found abnormally increased, should be based on practical operation completes the operation analysis correction of temperature measuring points, not blindly disposal. open the add volume should be slow to be careful, be well ahead of the superheated steam temperature of superheater tube wall temperature adjustment to strengthen supervision.
