

电子产品的后焊，插件及装配

产品名称	电子产品的后焊，插件及装配
公司名称	深圳市天锋威电子有限公司
价格	.00/个
规格参数	
公司地址	深圳市宝安区福永街道白石厦龙王庙工业区5栋 厂房
联系电话	15302621653 13760355031

产品详情

key specifications/special features:

features:

3.0 million ultrasonic vibrations infiltrate the dermis and promote recovery of elasticity and collagen so that fine wrinkles disappear

waves are much more minute and gentle with ultrasonic's 3 million vibrations, and are more suitable for treatment around the eye area and forehead

effects of multiple colors such as red, green, and blue are added to the ordinary specifications of ultrasonic

red ray: reaching deep into your skins without medium

low power: do not need cooler medium

temperature control: warm and comfortable

buzzer: sounds two audible tone at the end of the treatment and auto shut-off

lightweight: easy to carry and use in any time, any place

ultrasonic massager is designed safety and smooth

ultrasonic and light therapy also effect rising ph index in cell tissue, reducing inflammatory tissue having symptoms of acid poisoning

recovering damaged tissue, improving infiltration transit of cell membrane for effective medication

benefit of warm heating by light therapy is extending blood vessel, improving blood circulation and vitality, stimulating nerves, extending tissue, recovering labor pains and fatigue

effective usage:

after bath or facial cleaning is most suitable time for using ultrasonic massager.

activates the cell tissue, melt down and expel the dirt deep inside the skin

ultrasonic massager will also enhance the effectiveness of skin care product

skin looks much better and younger than before usage

functions:

whitening keeps moisture improves blood circulation removes pimples

minimizes pores firms skin smoothes anti-wrinkles

balance skins and enhance blood circulation

prevent the formation of melanin pigment remedy acne and dermatitis

"电子产品的后焊，插件及装配"的无铅制造工艺为提供，加工方式是任何方式，质量认证标准为ISO9000，生产线数量是4，日加工能力为10000，加工设备数量是8，加工设备为回流焊，锡炉，加工种类是电子产品加工
