

# 帝人 1040GJ PPS 1040GJ

产品名称	帝人 1040GJ PPS 1040GJ
公司名称	武汉科塑泰新材料有限公司
价格	46.00/件
规格参数	密度:1.4 型号:1040GJ 产地:日本
公司地址	武汉市江岸区三阳路11号2幢2层11室（注册地址）
联系电话	0157-17122180 15717122180

## 产品详情

ECOTRAN is the world's first non-chlorine and eco-friendly polyphenylene sulfide (PPS) resin by innovative process.

ECOTRAN是世界上第一种采用创新工艺的无氯环保聚苯硫醚（PPS）树脂。

PPS resin is a partially crystalline polymer widely known as a super engineering plastic with outstanding performance such as heat resistance, excellent chemical resistance and inherent flame resistance.

By adopting HDC POLYALL's world first innovative process of PPS resin production, following advantages can be obtained compared to conventional PPS resins;

- 1.No chlorine components contained.
- 2.The process does not produce any by-products such as sodium chlorides which comes with conventional PPS resin.

HDC POLYALL will promote their PPS resin worldwide under the brand name of ECOTRAN and Teijin will serve all Japanese customers by cooperation both companies resources and technologies

PPS树脂是一种部分结晶的聚合物，是一种具有优异耐热性、优异耐化学性和固有阻燃性等性能的超级工程塑料。

采用HDC POLYALL全球首创的PPS树脂生产创新工艺，与传统PPS树脂相比，可获得以下优势；

1.不含氯成分。

2.该方法不产生任何副产品，例如常规PPS树脂附带的氯化钠。

HDC POLYALL将以ECOTRAN品牌在全球推广其PPS树脂，帝人将通过公司资源和技术的合作为所有日本客户提供服务
